Full Stack Web Development

Masai School , Bangalore

Feb 2022 - Dec 2022 (Full Time)

B.E. Mechanical Engineering

KDK College Of Engineering

Aug 2016 - Sep 2020

SUMMARY

A Full-stack web Developer, with 1+ year of experience in design, integration, and intuitive problem-solving, passionate about challenging projects requiring critical and analytical thinking. Thrives in collaborative settings and enjoys contributing to impactful projects.

WORK EXPERIENCE

○ Intoglo Pvt. Ltd.

- Chennai

Associate Software Developer

Mar 2023 - Jun 2024

Developed key features for **gloTrack**, including real-time shipment tracking and detailed shipment info. Engineered a high-accuracy **Carbon Emission Calculator** using Google Maps. Launched an **AI-driven HS Classification system**, reducing manual data processing time by **40%** through automation.

Areas of responsibility -

- Design and developed frontend mobile-friendly web applications.
- Provided backend functionalities such as RESTful APIs, ensuring security for a seamless user experience.
- Designed and developed database models through migrations.
- Manage and optimize cloud-based production servers to ensure uninterrupted website functionality.
- Designed and maintained cron jobs for seamless automated data updates.
- Developed web scraping scripts for efficient data extraction and comprehensive data analysis.

PROJECTS

○ HubPoint

This CRM website provides app services and advanced marketing and ad tools to enhance website performance and customer engagement.

○ MuscleFit

Developed a web application that provides customer-based customized workout plans & tracks them. It also offers progress analytics to help users achieve their fitness goals.
